The **PAPS** labels are used in conjunction with the **ACE e-Manifest** & your **Customs Entry** when transporting goods from *Canada into the US*. These labels work as a *Shipment Control # (SCN)* which is required when submitting an e-manifest and a formal entry with US Customs each time you cross the border.

The **PARS** labels are required by *Canada Border Service Agency (CBSA)* when transporting goods from *US into Canada*. **One label** must be placed on the commercial invoice and provided to the Customs Agent at the Canadian Border. A carrier code must be obtained thru CBSA by submitting an application via fax or via mail. To get an application please contact us or you may download the application on our website.

Both the PAPS & PARS labels are printed in sequential order. **These labels have been pre-approved by Canada Border Service Agency and US Customs & Border Protection.** Please choose the quantity, shipping method along with the shipping information below. Once you have completed the form you may e-mail it to greenlightservices@gmail.com or fax it back to (757) 299-8163 for processing.
